STC SWEEPER COLLECTOR

COLLECTS AUTUMN LEAVES AND DEBRIS BRILLIANTLY.

Mode 1

When in sweeping mode, the **STC** is fitted with the brush rotor comprising 4 banks of hard-wearing polypropylene bristles which will lift autumn leaves, grass clippings and litter effortlessly into the hopper. The bristles, which are secured firmly into a pre-drilled strip with a wire staple, are a generous length to give a good 'flick' action ensuring that the material is thrown to the back of the hopper.

STC FLAIL COLLECTOR

TACKLING LONG OR SHORT GRASS IS NO PROBLEM!

Mode 2

As a flail collector, the **STC** is fitted with a large diameter steel drum rotor with 4 rows of closely spaced flails, and 2 rows of draft paddles to create the suction for collecting the grass. The **STC** has a wide opening, therefore long or short grass will be collected efficiently without blocking even in wet conditions.

Not only will the **STC** leave a fine finish on short turf, but is also ideal for end of season clearance of wild flower areas or golf course rough.

STC SCARIFIER COLLECTOR

LEAVES SPORTS TURF AT THE TOP OF IT'S GAME!

Mode 3

When in scarifying mode, the flail blades are replaced with 2mm verti-cutting knives for a professional scarifying operation. Ideal for sports field work or lawns, the **STC** scarifier will leave a clean cut through the turf at approx. 30mm centres and will collect the debris in one pass.
